

# The Indian Textile Journal

Technology, Machinery & Trade Information for the Textile Industry

Advertisement Rate Card No: 15. Issued on 31 December 2009. Effective April 2010.

The *one & only bible* of the Indian textile industry for over 119 years!

Rated as the Best Medium to Promote Technologies & Products

The Indian Textile Journal, or ITJ as the monthly is known in the Indian textile industry for over 119 years, has built a high reputation with its editorial contents. Today, there is hardly any decision-maker in the Indian textile industry who does not refer to ITJ when his company is in need of a sophisticated technology or a machine.

The focus of ITJ each month ranges from fibres & spinning right up to finishing of textiles – with the coverage that includes weaving, knitting, dyeing & printing. It carries well-researched articles by experts, features on new technologies, select new product profiles and important trade news including updates on exhibitions, events & other areas vital for the growth of the industry. Newly emerging areas like technical textiles & nonwovens are also covered.

A major USP of The Indian Textile Journal is the monthly's durable shelf-life: Subscribers preserve each issue for at least a year for future reference. The print edition is well-backed by its online version. Last but not the least is ITJ's international flavour – being the one & only textile magazine in Asia with a large clientele of overseas advertisers that includes iconic names like Uster, Staubli, Loepfe, Schlafhorst, Rieter, Benninger....

**Advertise in ITJ & join the Big League!**

The Indian Textile Journal is now an *emagazine* as well. In the past, thousands of foreign businessmen wanted to see ITJ for a variety of reasons, but the airmail/courier costs were exorbitant. Now they access the *emagazine* edition of ITJ from the link given in the Home Page (left side bar) of [www.indiantextilejournal.com](http://www.indiantextilejournal.com), which means your advertisement and product profile in ITJ is seen worldwide at the same time as you see it from the print edition of ITJ.

### Material requirements:

Soft copy: Adobe PageMaker 6.5 with link files/Corel Draw 14.0/Adobe InDesign/JPEG/TIFF/EPS/PSD format.

### Closing date:

25th of the month preceding the month of publication.

## Subscription Rate

**12 Issues US \$135 UK £65**

Please see page 3 for Media Plan (April 2010-March 2011)

The online version of **The Indian Textile Journal**, [www.indiantextilejournal.com](http://www.indiantextilejournal.com), has come a long way since its launch in 2007. The all-encompassing portal, with an international flavour, contains features & technology presentations published in the magazine. In fact, it is print & a lot more as it holds a vast wealth of information. The portal has a calendar of events & exhibitions, news stories and product information very much relevant to the entire textile industry – fibres & spinning to apparels & garmenting, including weaving, knitting, processing, dyeing & finishing.

On the **ITJ** portal, each month, the print edition is uploaded on a selective basis, with many of the relevant features from authoritative sources occupying prominent place. The portal offers valuable information to the entire textile industry, and has also introduced new sections like technical textiles & nonwovens, which are the top areas of today's textile industry. In short, [www.indiantextilejournal.com](http://www.indiantextilejournal.com) is an online source of information for the textile industry and the best cost-effective medium for spot advertisers (and used machinery auctions) to reach the textile industry of India.

### Subscriber Profile

- All textile mills including spinners, weavers, processors & composite mills.
- Consultants & project specialists.
- Reputed academic institutions.
- Research institutes of the textile industry.

### Circulation

Covers the entire Textile Mills sector in India.

### Readership

Over 1 lakh comprising top decision-makers, production managers and marketing personnel.

### Advertisers Profile

(from segments in textile industry)

1. Spinning machinery & accessories
2. Weaving machinery & accessories
3. Processing machinery & accessories (bleaching, etc)
4. Dyeing, finishing & printing machinery & accessories
5. Inputs for dyeing, finishing & printing (dyes, inks, enzymes, etc)
6. Instrumentation (testing, monitoring, controlling equipment & accessories, related to the entire textile chain)
7. Knitting machinery & accessories
8. Garmenting machinery & accessories, related equipment
9. Auxiliaries: All kinds of parts & components that go into the retrofitting/manufacture of textile machinery – covering all the above segments (conveyor belts, springs, drums, pipes, LEDs, switch panels, blowers, fans, conditioning systems, pneumatic equipment, vacuum cleaners, etc)
